

AWARENESS

Respect your personal and other's boundaries.

What an harassment is, is always determined by the person affected.

Harassments happen everywhere – in left-wing spaces such as this one aswell. Let us rise up against every kind of discrimination: discrimination based on gender, appearance, sexual orientation, origin (...) do not belong here.

We supporters want to strenghten the awareness of possible disrimination and assaults aswell as provide ease and shelter and lend an ear to people affected.

Be aware!

The fundamental goal of the supporters-initiative is to solve emerging conflicts in the most constructive way possible. Best case scenario: we don't need to get active. We react if you ask us to –we'll talk about further procedures together and ultimately you decide.

We supporters want to provide you with ease and shelter and lend you a friendly ear – everything you entrust us with, we keep to ourselves. We're on your side and do not question that a line has been crossed. You can find us at the supporters' table next to the wardrobe; we're sober all evening, approachable and visible.

If you feel the need for a retreat, just come say hi – a quiet room away from the crowd will be available.

Whether affected in person or not: At the supporters' table you'll find information material on the concept of consens and on sexism and other forms of discrimination.

It is important to us that everyone feels safe. Please keep in mind that you're responsible for your own actions. With your behavior you contribute to the mood at this solidarity-party. You're not just a passive consumer, but are actively taking part in shaping the athmosphere. Everyone is welcome here and no one should ever be discriminated against based on any feature.

How do we organize this room so that everyone can feel welcome?

- Disrespecting and assaulting behavior such as stupid come-ons or other harassments do not belong in this world (or any parallel universe). Flirting is not prohibited as long as interactions are respectful and no one gets offended: Flirt, don't hunt!
- Dance considerately, so that everyone feels comfortable – no one likes to be danced up on from behind or to be hit by uncontrolled extremities.
- At concerts smaller people stand in the front, taller people in the back (or on the sides) so that everyone can see something.
- If you have troubles setting your own or respecting other people's boundaries under the influence of substances – don't do drugs.
- If you feel threatened, harassed or unwell or if you notice that someone else needs help: directly ask concerned person, don't leave it to somebody else to come into action and get in touch with the supporters if necessary.
- Act on the principle of consensus. Consensus means that actions and conversations only take place in mutual consent. Pay attention on how your vis-à-vis is (nonverbally) signaling you, whether or not they want to talk to or interact with you.
- In general: Only Yes means Yes!

Freedom means taking responsibility!

We're all called upon to contribute to making everyone feel safe at the party.

All people attending the party should show solidarity with these principles and people affected by assaults.

This means: Racism, sexism, hate against lesbians, gays, queers or trans* together with violence and harassing behavior are banned!

Respect each other – be aware.
